MANOS QUE SOBREVIVEN (MQS)

Our Mission & Vision

MISSION

Social Rights Are the Foundation of Well-being.

Our mission focuses on the communities of Los Angeles, working together to combat inequality regarding social, educational, and cultural rights. In this new phase, we seek to strengthen our services with a clear purpose: the well-being of all.

VISION

To continually evolve as a premier, front-line humanitarian agency by expanding our regional community programs and active partnerships. We envision transitioning from urgent emergency food distribution into a fully independent infrastructure, establishing our own state-of-the-art facility, and deploying optimized logistics to permanently eliminate socio-economic and health inequalities for vulnerable families across Los Angeles.

Manos Que Sobreviven is a registered 501(c)(3) non-profit organization.
